Alum baking powders are unhealthful. Do not use them for raising food under any circumstances. So detrimental are alum baking powders considered, that in most foreign countries their sale is prohibited. In many States in this country the law compels alum powders to be branded to show that they contain this dangerous acid, while in the District of Columbia, Congress has prohibited the sale of all food that contains alum.

Alum baking powders are sold to consumers at from 10 cents a pound to 25 ounces for 25 cents, or 25 cents a pound, and when not branded may generally be distinguished by their price.

Marriage Anniversary and Death.

A very pleasant social event occurred at the hospitable home of Ex-County Commissioner and Mrs. A. M. Waybright, in Freedom township, on last Thursday. On that day, forty years before, Mr. and Mrs. Waybright were united in the holy bonds of wedlock by Rev. Mr. Steiner at Graceham, Frederick Co., Md. The day was most pleasantly spent in recalling the many happy events which have transpired during these years. At the noon hour a most bountiful dinner was served which was greatly enjoyed by the guests. Mr. and Mrs. Waybright were the recipients of some useful presents. The only thing to mar the pleasure of the occasion was the indisposition of Mrs. Waybright. Those present were Mr. and Mrs. A. M. Waybright, Rev. W. G. Minnick, Mr. and Mrs. Jacob Waybright, Mr. and Mrs. Lewis Bollinger, Mr. and Mrs. Samuel Waybright and two daughters, Mr. and Mrs. John Hockensmith, Mrs. Hilderbrick, Mrs. Martin Valentine, Miss Lillie Valentine, Mr. and Mrs. Frederick Rhodes, Mrs. Robert Waybright, Misses Margaret, Cora, Grace, Bruce and Messrs. John and Ernest Waybright. The guests returned to their homes hoping Mr. and Mrs. Waybright might be permitted to celebrate many times in the future, the anniversary of their wedding day.

On the following day the community was shocked to learn of the death of Mrs. A. M. Waybright, taking place Friday morning. Illustrating how gladness and sadness so often go hand in hand. The funeral took place on Monday afternoon, Rev. W. G. Minnick conducting services with interment in Evergreen cemetery. She leaves besides her husband, one child, a son.

The consideration was \$4000. The license of Jacob Beardsall will be transferred April 1st, to Thomas W. Fagle of Harrisburg. Mr. Beardsall and wife have made the Rock Top Hotel famous for good dinners, and it has been the place of entertainment for the Franklin Township Social club and other organizations. The many friends of Mr. and Mrs. Beardsall will regret to see them give up the hotel they have so long and well

College Boys on Rampage.

"Fired, Fired," was the song half a hundred students sang last Friday evening as they paraded the streets of the town in single file, and next day they were fired. They belonged to the Sophomore class. This class on Wednesday evening had a banquet at Eagle Hotel. It was expected that the Freshmen would attempt to break it up. While they banqueted the Freshmen ran up their pennant near entrance to campus and painted everywhere 1906. The Sophomores accepted this as a challenge when they reached the campus. Finding no Freshmen to fight they visited their rooms, got some out in full dress, put them through stunts and gave one a shower bath. A number of Freshmen took refuge in a Fraternity house. The Sophs besieged the place. Failing to get at them they visited their rooms, piled up their furniture, tied their clothes into knots and in the general tear up of the rooms did much damage. The faculty took up the matter Friday and there was a long session. Appearances indicating that several of the class were to be punished on Saturday morning a paper was presented to faculty, signed by 51 members of class that they were equally guilty of the rampage. Next day the fifty-one were fired, indefinitely suspended. The excesses of college boys are beyond any defense. To fire 51 members of a class can not help, however, but injure an institution and the community in which it is located. It is in effect a confession of inability to manage college boys. Environment, traditions of rampages, and many surrounding circumstances have a share in the development of the rampant college boy and firing would wash out this responsibility. It is to be hoped the faculty will reconsider their action, get the boys back, compel them to pay for every penny of damage done, punish as they may see fit within their own sphere and so counteract the notoriety and injury done this college and community by firing the big end of a class.

Postmaster McIlhenny.

Postmaster McIlhenny it is for another four years, made so by President Roosevelt upon the recommendation of Congressman D. F. Lafean. What a time there was over it. First one delegation visited Lafean, then another and one watched the other. Congressman Lafean was written to, telephoned to and told what would happen if he did this or that. For instance it is said a leading Republican sent him word he would stump the county against Lafean if Mac was appointed; another told him if the appointment was made he would lose hundreds of votes; another that he could not carry Adams county. We are reliably informed that the Congressman was finally exasperated and gave out this ultimatum, that he was going to appoint McIlhenny and that he could be elected to Congress without Adams county. And McIlhenny has the post office.

lines of the Adams County Mutual Fire Insurance Company, where a premium is charged calculated to provide for losses without any assessment, a surplus being created for the purpose as fast as the business will permit. The rules of the Adams County Co. provide for a limited insurance in this and other places, such as \$5,000 insurance to a square, and the new company would hope to supply additional insurance at such limited points. Those interested in the company believe there is demand for the kind of insurance they are organizing to offer and prospects are bright for the Company.

Letter to Davis & Co.

Gettysburg, Pa.
Dear Sirs: When you see a well dressed man, you like to say: "There's a sample of our clothes. That man is worth two of himself as he was when he came to us."

We have the same feeling. Our paint on a house is worth twice as much as old fashioned painter's paint, lead-and-ol. It looks the same when first put on. In three months it don't. In three years it decidedly don't.

Lead-and-oil chalks off in three years; it is considered a first rate job that lasts three years.

Decor lead-and-zinc is about as good in three years as it was the day the painter left it.

Zinc is the secret of it; no secret at all. A good many painters know zinc; some mix it in with their lead. We grind it in; not a little; good deal.

It is the zinc and the grinding that does it. You can't mix zinc by hand. We grind it in by machinery.

Painters are finding us out, though some painters are slow.

You know that it pays a good man to wear good clothes. How many customers have you that know it?

Yours Truly
F. W. Devore & Co.

We heard a man say the other morning that the abbreviation for February—Feb.—means Freeze every body, and that man looked frozen in his utterance. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.
